

Sustainable Development Innovation Arena

Updated by GAME network November 2010

Knowledge triangle

GAME - Göteborg Action for Management of the Environment

A collaborative project in Western Sweden bringing partners and stakeholders together from research, business sector and regional authorities. Sustainable development is the common denominator for all activities within the GAME network.

A network for everyone who wants to collaborate for a more sustainable development in Western Sweden and who would like more contacts within industry, society and research. Today, close to 400 persons are members of GAME network.

Use the possibilities to cooperate

Initiate a collaborative project.

Keep informed about current environmental issues.

Access opportunities for European project financings.

Read more about the GAME network at our website: www.gamenetwork.se

At the website you can also join our email-list.

Nätverket GAME är ett unikt samarbete mellan aktörer från Näringsliv, Samhälle och Forskning.

Det gemensamma temat är hållbar utveckling där man tillsammans driver processer för att medverka till en positiv utveckling. Förkortningen GAME står för "Göteborg Action for Management of the Environment" och har funnits i 10 år.

Genom att medverka i Nätverket GAME får man god insikt i vad som sker hos de olika aktörerna och trender i stort. Dessutom har man tillsammans större möjlighet att påverka utvecklingen i Västsverige.

Gå med i GAME! Klicka här för att fylla i din intresseanmälan. Medlemskapet är kostnadsfritt.

Sustainable development innovation arena

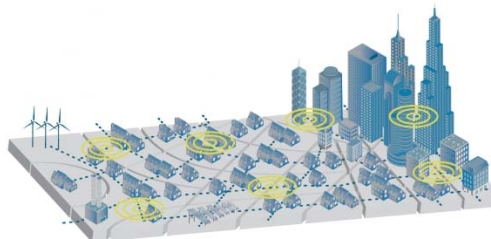

Foto: Erica Svane

The GAME network members cooperates with ambition to generate an arena for innovations that supports sustainable development.

Network members bring research capacity, Business models, community demonstration facilities and educational resources to this arena situated in Western Sweden.

Areas of special attention

- Energy efficient buildings
- Green Logistics including biofuels
- Renewable electricity supply including smart grids

Examples of network activities in Western Sweden within these areas

- Energy efficient buildings
 - Urban Futures, Forum for energy efficient buildings
- Green Logistics including biofuels
 - The Business network Sustainable Transports, Biogas Väst, KNEG, Northern Lead, Light House, The Infrastructure and Logistics cluster, The Network for Transport and Environment
- Renewable electricity supply including smart grids
 - Thermal Engineering Research Institute, Hydrogen Sweden, Waste Refinery

- Passivhuscentrum i Alingsås
- Pumpkällehagen, Viskafors
- Villa ToRo, Vinninga
- Eksluttningen, Alingsås
- Stadsskogens förskola, Alingsås
- Villa Wenhult, Lerum
- Höjden, Lerum
- Kantorns väg, Horred
- Strandkanten, Ellös
- Östra Tjuvsundsberget, Kungshamn
- Aspekullen, Färgelanda
- Måsen 7, Trollhättan
- Brf Ångared, Tollered
- Misteröd, Uddevalla
- Dalgången, Göteborg
- Bottnevågen, Göteborg
- Gårdsten, Göteborg
- Lindås, Göteborg
- Hamnhuset, Göteborg
- Backa Röd, Göteborg
- Villa Kannalden, Öckerö
- Brogården, Alingsås
- Tehuset, Borås
- Pumpkällehagen, Viskafors
- Passivhuscentrum i Alingsås
- Villa Malmberg, Lidköping

Urban Futures

- A centre for sustainable urban development
- Financed by Mistra and Sida
- The consortium:
 - Research: Chalmers, University of Gothenburg, IVL Swedish Environmental Research Institute
 - Society: The Göteborg Region Association of Local Authorities (GR), City of Gothenburg, The County Administrative Board of Västra Götaland, Region Västra Götaland

Contact

Telephone: +46 (0)31 772 49 56 (Secretariat)

E-mail: mistraurbanfutures@chalmers.se

Web page: <http://www.mistraurbanfutures.se/>

Forum for energy efficient buildings

- A Swedish forum for energy efficient buildings
- Financed by Region Västra Götaland and Swedish Energy Agency
- The forum:
 - Research: SP Technical Research Institute of Sweden, IVL Swedish Environmental Research Institute, The Faculty of Engineering at Lund University
 - Industry: ATON Teknik Konsult AB

Contact

Telephone: +46 (0)31 725 62 62

E-mail: anna.widheden@ivl.se

Web page: <http://www.energieffektivbyggnader.se/>

The Business network Sustainable Transports

- A neutral meeting place for consultants och suppliers of services and products within sustainable transports
- Around 60 member companies
- Financed by Region Västra Götaland and Swedish Transport Administration

Contact

E-mail: info@aht.nu

Web page: <http://www.aht.nu/>

Biogas Väst

- A regional project for biogas as vehicle fuel
- Some 30 participants from privately and publicly owned companies, organizations, public authorities and municipal authorities
- Financed by Region Västra Götaland, Klimp, Swedish Transport Administration, BiogasMax

Contact

Telephone: +46 (0)31 61 56 19 (Chairman)

E-mail: bernt.svensen@businessregion.se

Web page: <http://www.businessregion.se/>

KNEG - Climate Neutral Freight Transportation

- A collaboration of organisations with the shared goal to reduce the climate impact of goods transport on Swedish roads
- Members:
 - Research: Chalmers, University of Gothenburg
 - Industry: FordonsGas Sweden, ICA Sweden Logistics, Lantmännen, OKQ8, Posten Logistics, Preem, Ragn-Sells, Renova, DB Schenker, Stora Enso, Sveriges Åkeriföretag, Volvo Trucks, Volvo Logistics
 - Society: Swedish Transport Administration

Contact

Telephone: +46 (0)31 772 49 67 (Secretariat)

E-mail: info@kneg.org

Web page: www.kneg.org

Northern Lead

- A logistics competence centre formed by and the University of Gothenburg in co-operation with the Infrastructure and Logistics cluster LTS

Contact

Telephone: +46 (0)31 772 1352 (Information Officer)

E-mail: annica.eijlinder@chalmers.se

Web page: <http://www.chalmers.se/tme/lead-en/>

Light House

- A multidisciplinary maritime competence and research centre initiated by Chalmers, the School of Business, Economics and Law at Göteborg University and The Swedish Shipowners' Association

Contact

Telephone: +46(0)31 772 43 59 (Director)

Web page: <http://www.lighthouse.nu/>

LTS - The Infrastructure and Logistics cluster

- A cluster which aims to sharpen the Göteborg region's competitive edge by developing logistics and transport as a way to contribute to growth and employment

Contact

Telephone: +46 (0)31 61 24 11 (Manager)

E-mail: bengt.wennerberg@businessregion.se

Web page: <http://www.businessregion.se/>

NTM - The Network for Transport and Environment

- A non profit organisation, initiated in 1993 and aiming at establishing a common base of values on how to calculate the environmental performance for various modes of transport
- Members: about 150

Contact

Telephone: +46(0)8 640 01 65

E-mail: info@ntmcalc.org

Web page: <http://www.ntmcalc.se/>

Hydrogen Sweden

- Hydrogen Sweden is a Public Private Partnership with members and financiers from industry, NGO's and local, regional and national government

Contact

Telephone: +46 (0)31 334 37 70

E-mail: info@vatgas.se

Web page: <http://www.vatgas.se/>

Thermal Engineering Research Institute (Värmeforsk)

- Värmeforsk is an association for energy, process and manufacturing industry including forestry industry and energy consulting firms
- Is financed jointly by the industry and the Swedish Energy Agency

Contact

Telephone: +46 (0)8 677 25 80

E-mail: info@varmeforsk.se

Web page: <http://www.varmeforsk.se/>

Waste Refinery

- A Swedish Excellence Centre which is coordinated by SP Technical Research Institute of Sweden
- The centre performs theoretical and practical research, in close collaboration with representatives from the industry, research organisations and the society

Contact

Telephone: +46 (0)10 516 55 20 (Centre Head)

E-mail: wasterefinery@sp.se

Web page: <http://www.wasterefinery.se/>
